Flight Time: 2255PDT Flight Date: 7-6-2015	Interpreter(s) location: Oregon Interpreter(s) Phone: 541-294-9222	Regional Coordinator: Jim Grace Regional Coord. Phone: 541-416-6593	National Coordinator: Tom Mellin National Coord. Phone: 505-842-3845
Ordered By: Jacob Rosenberg	Order Number: A-20	Aircraft/Scanner System: N144Z/Phoenix	Pilots/Techs: Kaz/Jill
IRIN Comments on imagery: Good imagery on all parts of the fire.		Weather at time of flight: Clear	Flight Objective: Perimeter identification and hotspot location
Date and Time Imagery Received by Interpreter: 7-6-2015 @ 2300 (PDT)		Type of media for final product: PDF Maps, Shapefiles, and KMZ	
Date and Time Imagery Delivered to Incident: 7-7-2015 @ 0035 (PDT)		Electronic file sent to: http://ftp.nifc.gov/incident_specific_data/pacific_nw/2015_Incidents_Oregon/2015_WallCreek_ORMAF_015153/IR/20150707	
Comments /notes on tonight's mission and this interpretation: <p>There are large concentrations of intense heat on both the Western and Southern sides of the fire. There are two small areas of intense heat on the Eastern side of the fire. Most of the North and Eastern parts of the fire have a large amount of scattered heat. The fire is intense enough that the Phoenix sensor was picking up heat in the smoke on the Western and Northeastern portions of the fire. On the Southwestern side of the fire, I am unsure if there is any heat outside the heater perimeter, due to the intensity of the heat. On the Western side, the fire has crossed West Dry Creek. The fire is North of China Hot Spring, South of Lick Spring, West of Widows Creek Burn.</p>
